

ANCHORS AWEIGH – MOVING FORWARD AS HSA!

"Last year was a milestone for Anchor Engineering as we passed our 25-year anniversary. For me, it has been a great pleasure leading the Anchor team over the years and I look forward to continuing our success as we set sail into our next 25 years as HSA, Fort Myers."

Dick Lewis
HSA Partner
Fort Myers Operations Manager

Richard G. (Dick) Lewis, P.E. has led Anchor Engineering Consultants, Inc. since 1988 and is currently a partner in HSA. Over the years he and the Anchor team have served over 900 clients throughout Southwest Florida. With his leadership, we have become one of the premiere local engineering firms with a reputation for providing reliable information and practical engineering solutions. We look forward to providing the same quality service as HSA Engineers & Scientists!

"Anchors Aweigh" (definition): to raise up an anchor in preparation for sailing.

At Anchor Engineering, we're excited to announce our "change of colours" to recognize our status as part of HSA Engineers & Scientists. As you know, we formally joined the HSA organization nearly 3 years ago. We'd like to announce that, beginning on October 1, 2006, we will begin using the HSA name exclusively.

As part of HSA, we are able to support our clients with the expertise and depth of service of an organization of nearly 200 engineers, scientists and technical staff throughout the State of Florida; and through national alliances we have access to over 2,100 experts worldwide. **Locally, we have grown to a staff of over 35!** Adding HSA's strengths to the dedicated expertise of Anchor Engineering's personnel makes us the NATURAL choice for COMPLETE engineering solutions for:

- Civil Site Design & Permitting
- Environmental Assessment & Remediation
- Water/Wastewater
- Water Resource Engineering
- Structural Engineering
- Mechanical Engineering
- Electrical Engineering
- Fire Protection & Plumbing
- Insurance Services
- Geotechnical Engineering

As many of you know, Dick's son, Richard G. Lewis, II, Ph.D., P.E., has acted as Office Manager of the Fort Myers office for the past four years. Richard began his career with HSA over 10 years ago and is an accomplished environmental engineer who is well-respected in the Florida environmental field.

"I like to describe HSA as a small locally-owned firm with large national resources. Our Fort Myers office has been given a sound foundation through the leadership of local partners like my father, Mike Lastovica and Paul Kinnunen. With this expert team at the helm, HSA is looking forward to providing you with the consistent and reliable engineering services that you have come to expect. On behalf of the entire staff, I'd like to extend our heartfelt thanks to you for allowing us to serve you over the past 25 years and offer our commitment to serving you well over the next 25!"

Richard G. Lewis, Ph.D., P.E., HSA Partner, Fort Myers Office Manager

Mission Statement...

Our mission is an absolute commitment to excellence as we develop sound solutions that achieve our clients' business objectives and goals. We accomplish this by offering you access to professional staff that possess a wealth of knowledge, experience, capabilities and project management expertise. We see creative solutions where others see problems. We provide the innovations that enable complex and controversial projects to become realities. Reliability, integrity, responsiveness and the assurance of confidentiality define our work ethic. HSA remains a multidiscipline engineering consulting firm dedicated to meeting the challenges of our clients.

- **Reliability**
- **Integrity**
- **Responsiveness**

HSA OVERVIEW

Your community matters to HSA. After all, it's our community too. The Fort Myers office proudly serves Southwest Florida and is supported by seven other offices throughout Florida, Georgia, Mississippi, and South Carolina. Our operating philosophy is to be an expertise-driven national firm which delivers its services through a strong local presence, staffed by local residents who care about our community.

Our ability to draw upon resources and expertise companywide is a great strength in meeting and exceeding your expectations. With offices in Fort Myers, Tampa, Cape Canaveral, Fort Lauderdale, West Palm Beach, Biloxi, Savannah, and Hilton Head, we are within reach of project sites throughout the Southeast. Our success is attributed to consistently delivering the high quality and responsive service that our clients have come to expect. Moreover, we listen to our clients to understand what your needs are. We feel it's important for us to solve your problem today, but also recognize how it will impact your tomorrow. The scope of individual HSA projects ranges from engineering design and construction oversight for large residential, commercial, and industrial developments to Phase I Environmental Site Assessments (ESA's), comprehensive remedial investigations, materials testing and geotechnical recommendations. Our accomplishment in these areas has won us the trust and confidence of our clients. Our clients know they can depend on us, and they continually use our services on subsequent projects. Their repeated requests for our services demonstrate that we have earned their respect.

DIVERSIFIED STAFF

Through our success at providing high quality and responsive services to our clients, HSA has grown to more than 200 employees. Fifty-five are registered professional engineers (PE's), fourteen are registered professional geologists (PG's), and eight are engineers-in-training. Twenty-two of our employees have their Masters Degrees, four have their PhD's (or are in the process of attaining it), eight have their CIAQP certifications (certified indoor air quality professional), two are certified building contractors, and one is a certified general contractor.

HSA Professionals

PE	PG	EIT	Masters	PhD	CIAQP	CBC	CGC
55	14	8	22	4	8	2	1

Because HSA is a technical service organization, our employees are our most valuable asset. Our diversified staff has built a solid reputation over the past 17 years, with hard work and discipline.
